

Annex 1

Outline of the differences in the scopes of consolidation (entity by entity)

While for Commerzbank Group's Annual Report pursuant to the German Commercial Code the consolidation is based on IFRS, the information in the Disclosure Report is based on the group of companies consolidated for regulatory purposes.

Subsidiaries or companies controlled by the ultimate parent company according to IFRS, which do not belong to the financial sector are not part of the regulatory consolidation, but they are included in the consolidated accounts according to IFRS.

In applying article 436 (b) CRR the differences in the scopes of consolidation for financial accounting and regulatory purposes,

respectively, have to be disclosed by the institutions. For this purpose, EBA/ITS/2020/04 provides the table EU LI3.

All entities for which the method of the accounting consolidation is different from the method of the regulatory consolidation have to be included in the disclosure. On an entity-by-entity level the method of accounting consolidation has to be disclosed and whether and how – under the regulatory scope of consolidation – the entity is recognised, supplemented by a short description of the entity.

Commerzbank complies with these requirements through the table EU LI3 given on the following pages.

EU LI3: Outline of the differences in the scopes of consolidation (entity by entity)

a	b	c	d	e	f	g	h
Name of the entity	Accounting consolidation	full	pro rata	at equity	neither nor (1)	deducted	Description of the entity
