Revenue rebound in Q2 – costs and capital on track

Fixed Income Investor Update - Q2 2020 results

GM – Investor Relations | GM – Treasury | 18 August 2020

All figures in this presentation are subject to rounding

Q2 Financial Results

Revenue rebound in Q2 – cost and capital on track

Highlights Q2 2020

Stable operating performance of customer business

- > YoY stable underlying revenues in CC supported by better capital markets activities
- YoY slightly lower underlying revenues in PSBC includes booking of additional legal reserves for FX loan portfolio in mBank
- > Continued growth in customers in PSBC (+103k) and strong increase in usage of digital channels

Pre-provision profit of €674m; €220m net result benefits from release of tax reserves

- Q2 operating expenses reduced by €53m YoY through cost management while maintaining IT investments
- Fair value result of €163m and other income of €42m driven by rebound of temporary Corona induced valuation effects
- > Risk result of -€469m includes -€131m impact from Corona and -€175m large single case

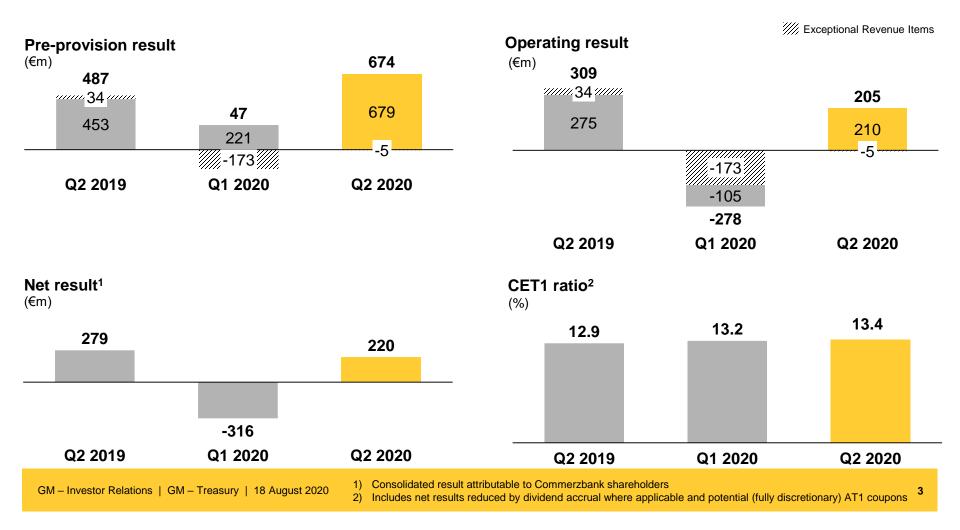

Strong capital ratio

- > CET1 ratio of 13.4% and buffer to MDA > 300bp
- > No usage of CRR transition rules; change in SME factor to be implemented in Q3
- > NPE ratio of 0.8% underlines sound quality of loan book

| Operating RoCET (%) | 5.2 | -4.6 | 3.3 | 4.7 | -0.6 |

- > YoY 8.8% increase in underlying revenues driven by rebound in valuations and better NCI (+7.2%)
- > H1 underlying revenues slightly up with improved NII and NCI (+€236m) largely offset by valuation effects (NFV and Other income -€218m lower)
- > Q2 net result of €220m positive tax effect reflects the release of reserves following the completion of tax audits; valuation gains at CommerzVentures non-taxable

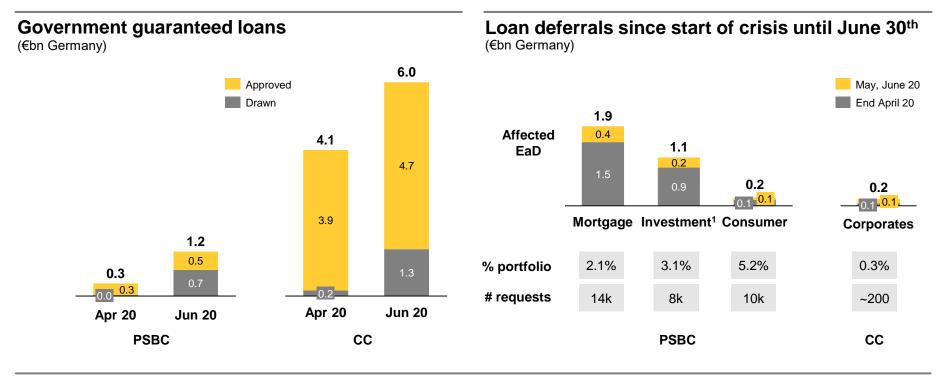

Lower costs reflect effective cost management

- > H1 operating expenses reduced by €117m (Q2 by €53m) YoY with lower expenses for external suppliers, advertising and travel
- > Personnel expenses benefit from a YoY reduction of around 1,000 FTEs to around 39,700 FTEs
- Delivery of IT investments according to plan (e.g. integration of securities brokerage in Commerzbank mobile app, Apple pay based on virtual debit card, 50% increase in number of operational API)

We actively support our customers – moderate demand for deferrals

- > Around 21k loan requests for €20bn received; >50% for KfW loans high ~15% market share for KfW loans (up to €100m)
- > Corporates benefit from reduced expenses (e.g. short-time work) and grants from German government reducing loan demand
- > >80% of deferrals only for principal payments (mainly maturity extensions) remaining deferrals for principal and interest

Q2 risk result includes -€131m impact from Corona and -€175m from large single case

Highlights

- > In CC -€289m risk result driven by large single case and Corona effects of -€45m
- > In PSBC -€153m risk result contains Corona effects of -€60m risk result of mBank -€77m in Q2
- > Risk result in O&C of -€27m almost completely refers to Corona effects
- > Increase in cost of risk on loan book to 58bp reflects booking of large single case 45bp excluding single case

 GM – Investor Relations | GM – Treasury | 18 August 2020
 1) NPE ratio = Non-performing loans and advances / Total gross loans and advances (according to EBA Risk Dashboard)

 2) Cost of Risk (CoR) = Risk Result / Exposure at Default
 9

 3) Cost of Risk on Loans (CoRL) = Risk Result / Loans and Advances (interim report note (19))
 9

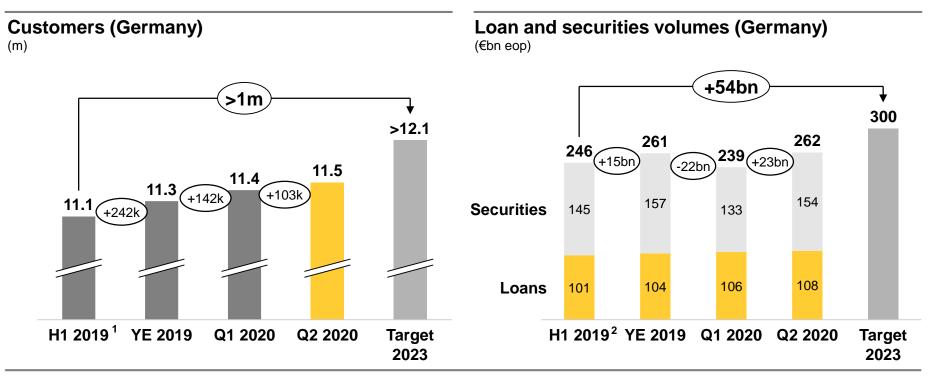

In H1 -€315m risk result booked for Corona effects – thereof -€154m Corona TLA to cover expected H2 requirements

- > €41m of expected Corona effects booked in Q1 as €111m top level adjustment (TLA) has materialized in Q2 remaining TLA is expected to materialize in H2
- → -€154m H1 TLA (-€82m in CC, -€70m in PSBC, -€2m in O&C) covering H2 requirements consist of remaining -€70m booked in Q1 and additional -€84m booked in Q2
- > FY 2020 risk result is expected to be -€1.3bn to -€1.5bn (CoRL 48-55 bp)

Private and Small Business Customers: continued growth

- > Continuing client and volume growth based on quick adoption of digital channels
- > ~75% new customers via online account opening
- > €4.2bn inflow in securities additional €16.9bn increase in securities volume due to rebound in market indices
- > German mortgages up 7% to €84bn with strong new business in Q2 2020 consumer finance book stable at €3.8bn

- 1) Values adjusted for ebase and inactive accounts
- 2) Values adjusted for ebase

Private and Small Business Customers: YoY stable revenues excluding addition to legal reserves for mBank FX loan portfolio

Highlights YoY

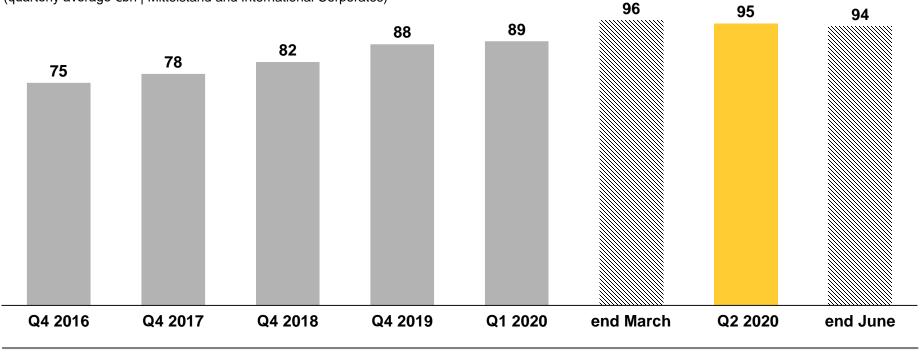

- Private Customers revenues reflect lower contributions from consumer finance and payments (lower consumption during lockdown) and lower contribution from modelled deposits – stable contributions from mortgages
- Small Business Customers revenues impacted by lower usage of committed credit lines and lower contributions from modelled deposits
- > comdirect revenues driven by strong securities business legal merger with Commerzbank AG expected in early Q4
- > mBank revenues affected by lower Polish interest rates and €42m addition to legal reserves for FX loan portfolio

Corporate Clients: Corona driven drawing of committed credit lines peaked in Q2

Loan volume Corporates

(quarterly average €bn | Mittelstand and International Corporates)

- > Drawing of lines by corporates peaked in the middle of the quarter subsequently gradual reduction
- > Gradual reduction of drawn lines as Government support reaches corporates and economy starts to reopen from shutdown

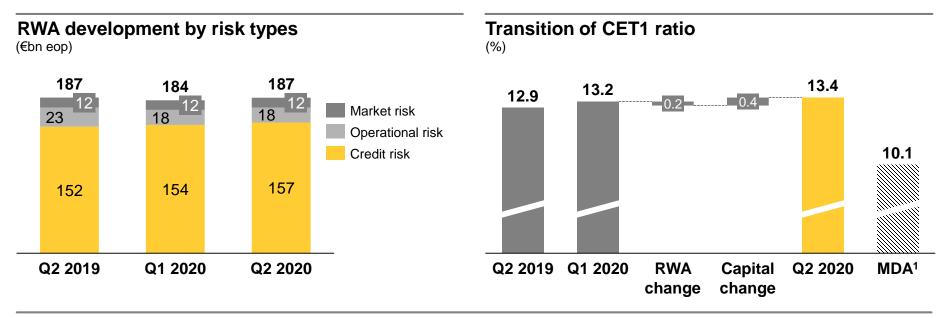

Corporate Clients: stable underlying revenues – risk result drives operating loss

- > Q2 pre-provision result of €201m up by €52m YoY risk result driven by large single case
- International Corporates benefits from Q2 peak in drawing of credit lines as well as strong capital markets franchise for debt capital market issuances
- > Mittelstand and Institutionals reflect lower economic activity and related international trade in Q2 due to Corona pandemic
- > €41m fine of UK Financial Conduct Authority following closure of investigation and remediation reported in exceptional revenue items

Strong CET1 ratio of 13.4% and buffer to MDA > 300bp

- Net €3.4bn increase of Credit RWA compared to Q1 mainly from higher loan commitments in CC and increased positions with central banks – only minor effects from rating migrations so far
- > No usage of new CRR transition rules in Q2 changed treatment of SME loans will be implemented in Q3
- Increase in capital due to positive net result in Q2, positive OCI effect from revaluation reserve and lower regulatory capital deductions
- > MDA reduced from 10.8% to 10.1% by successful issuance of €2bn additional Tier 1 and Tier 2 capital

Objectives and expectations for 2020 – assuming continued recovery

Base case assumptions

Objectives and expectations for FY 2020

No second lockdown

| 2 | |
|---|--|
| | |

Continuing step-bystep improvement in economic activity

Government support programs effective

PSBC – CC more strongly impacted by Corona We continue our cost management and target a

We continue our cost management and target a cost base including IT investments slightly below the level of last year

We expect largely stable customer revenues in

We expect a risk result in a range of -€1.3bn to -€1.5bn

We target a CET1 ratio \geq 12.5% in line with lowered regulatory requirements

We anticipate a negative net result in light of the expected risk result and potential restructuring charges

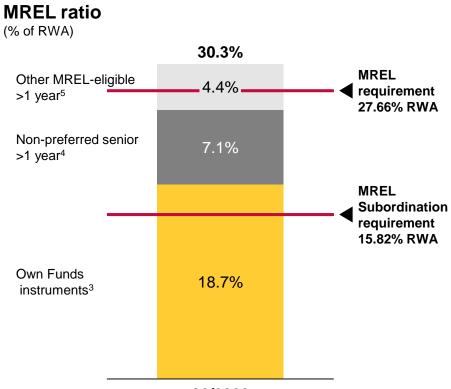

Capital and Funding

Comfortable fulfilment of MREL requirement based on RWA

MREL requirement

- As of 06/2020 Commerzbank fulfils the MREL RWA requirement¹ of 27.66% with a MREL ratio of 30.3% of RWA and the MREL subordination requirement of 15.82% with a ratio of 25.9% of RWA
- The MREL requirements will in future be defined in RWA terms under the BRRD II and SRMR II framework; currently they are derived from TLOF based requirements²
- New RWA based MREL requirements are expected in H1 2021
- With the participation in the ECB's TLTRO III offer the TLOF ratio of 11.8% is below the requirement of 12.01% as of 06/2020. This has been discussed with the SRB prior to participation in the TLTRO III and no actions by the SRB are expected
- The TLOF subordination ratio of 10.1% is above the requirement of 6.87% as of 06/2020

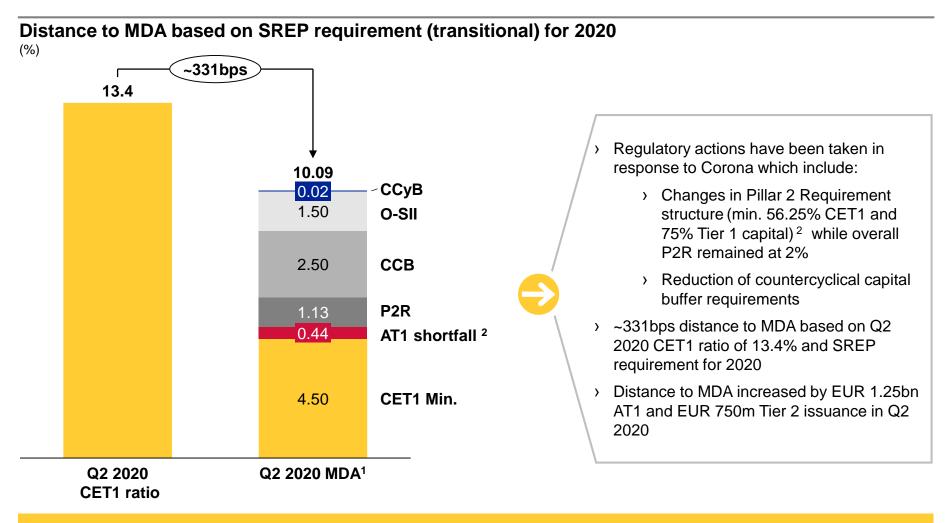

06/2020

- 1) In February 2020, Commerzbank AG received its current MREL requirement calibrated based on data as of 31 Dec. 2017. The resolution approach is a multiple point of entry (MPE) with two separate resolution groups (resolution group A: Commerzbank Group without mBank subgroup; resolution group B: mBank subgroup).
- 2) The legally binding MREL requirement is currently defined as a percentage of total liabilities and own funds (TLOF) based on data as of 31 Dec. 2017.
- 3) Includes amortized amount (regulatory) of Tier 2 instruments with maturity > 1 year
- 4) According to §46f KWG or Non-Preferred Senior by contract
- 5) Non-Covered / Non-Preferred deposits; Preferred Senior Unsecured

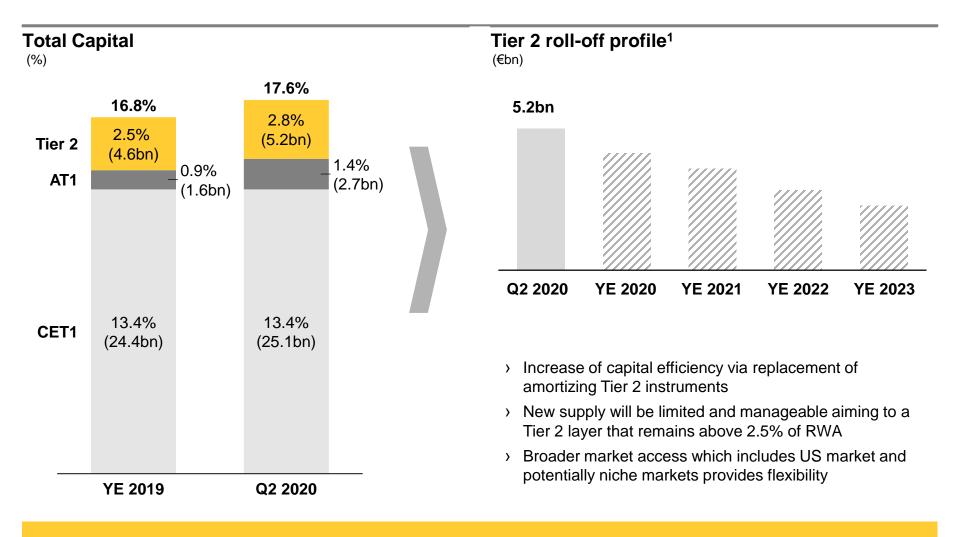

Recent capital transactions increased Commerzbank's distance to MDA

19

Total Capital – Development of Tier 2

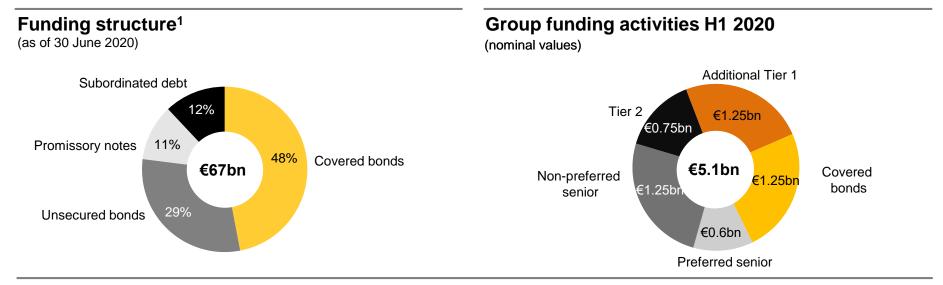

Two Capital Transactions to strengthen our own funds position

| | Tier 2 | AT1 |
|----------------------|---------------------------|--|

| Book Size | > EUR 4.9bn (final) | > EUR 9.5bn (peak) |
| # of Investors | > 290 different investors | > 425 different investors |
| Books at re-offer | > EUR 4.7bn | > EUR 8.5bn |
| Subscription | > 6.3x | > 6.8x |
| Currency / Size | EUR 750mn | EUR 1.25bn |
| | | |
| | window to place Tier 2 h | tal order book among the ighest in EUR AT1 with record investor interest |

- Two successful capital issuances within two weeks
- First EUR Tier 2 bond since 2017
- Commerzbank's first EUR AT1 issue and the first deal under the newly established AT1 Notes Programme
- Highest spread move in EUR AT1 ever (87.5 bps from IPT to Re-Offer)
- Both issuances contribute to the fulfilment of the new MREL requirements received in February 2020

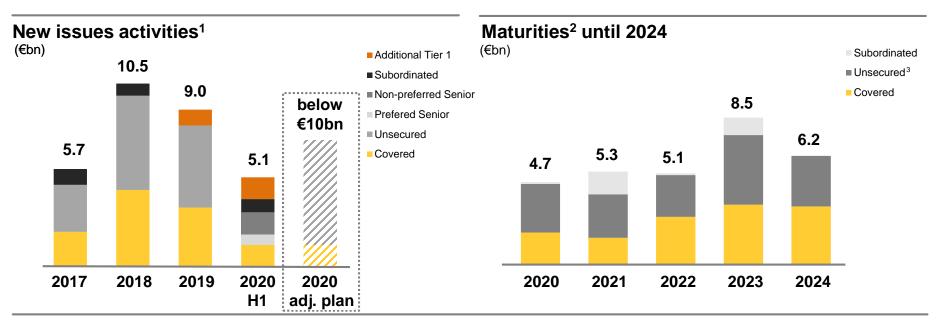

Capital markets funding activities

- > Funding activities well on track, revised funding plan 2020 well below €10bn
- > €5.1bn issued in H1 2020 (average term over 9 years) thereof:
 - Additional Tier1: First AT1 issuance under newly implemented €3bn AT1 program with €1.25bn issuance Perp. NC April 2026
 - Tier 2: €750m transaction 10.5 years non-call 5.5 years
 - Covered bonds: €1.25bn benchmark with 10 years maturity
 - Non-preferred senior: €750m transaction with 7 years maturity and inaugural GBP400m transaction with 5 years maturity
 - Preferred senior: €500m re-opening of the December 2026 issue from 2019

Capital markets funding plan 2020 revised to <€10bn

Highlights

- > Revised funding plan for 2020 well below €10bn as TLTRO III participation (€32bn) replaces funding needs for Pfandbriefe for the remaining year
- Continued focus on diversification of funding basis (e.g. GBP400m non-preferred senior; preferred senior YEN private placement)

3) Unsecured bonds incl. preferred and non-preferred senior bonds

German economy 2020 – a body blow from the Corona virus

| Current development | After an encouraging start into the year 2020, the spreading of the Corona virus and the measures aimed at containing the outbreak resulted in a slum of economic activity. As a consequence, German real GDP shrank by 2.0% QoQ in Q1 and by 10.1% in Q2. | | |
|--------------------------------|---|---|--|
| | Since May the German economy has recovered a significant part of the los it suffered in March and April. However, at the end of June economic activit was still significantly lower than before the Corona crisis. | Ses 10,957 10,196 11,600 | |
| | Almost all parts of the German economy are affected by this slump, albeit a different degree. One of the less affected sectors is probably construction, | it a 2015 2016 2017 2018 2019 2020 | |
| | while big parts of the service sector, which had been the mainstay of the German economy until the outbreak of the virus, have been hit very hard. | Euribor (avg. p.a. %) | |
| | The crisis has significantly affected the labour market. Only the massive us of state-subsidised short-time employment has prevented a massive increa in official unemployment. In May, almost 7 million workers were participatin in this scheme. Nevertheless, recently the seasonal adjusted number of | e -0.02 se -0.26 | |
| | officially unemployed people reached a 5-year-high. | — 2015 2016 2017 2018 2019 2020 | |
| Our expectation for 2020 | After the fast rebound since the end of April the recovery will probably slow down in the course of the summer as the virus is still hampering economic activity. Nevertheless, real GDP will increase significantly quarter-on-quarter in Q3. | GDP er (change vs. previous year %) 4.5 ⁵ | |
| | As after previous recessions, it will take time until German real GDP reacher its pre-crisis level again. An additional brake for growth is the recent strong increase in business debt. After the crisis firms will try to reduce their debt burden by postponing investment and cutting their workforce. | 2.2 1.8 ^{2.5 2.6} 1.5 ^{1.8} 0.6 ^{1.2} Germany Eurozone -5.5 -7.0 2016 2017 2018 2019 2020e 2021e | |
| | We expect the German economy to shrink by 5.5% in 2020, followed by a recovery of 4.5% in 2021. Obviously the forecast uncertainty is much highe than usually, as it depends strongly on the further development of the pandemic. | | |

Strong governmental, regulatory and central bank action

Corona related support measures

| | German Government | European Union | Regulators and ECB |
|------------------------|--|--|--|
| Regulatory measures | Domestic short-time working scheme Suspension of insolvency law until October 2020 Full support for trade activities by credit insurer | > European short-time working scheme (SURE) > Extended application of EU Solidarity Fund | > Easing of capital requirements > Reduction of procyclicality of regulations > Postponement of Basel IV introduction |
| Financial measures | > KfW loans with 80/90/100% guarantee available > Equity injection available > Grants given to small SME / self employed | > Economic stimulus in long-term budget plan 2021-27 > Next Generation EU (€750bn recovery instrument) > European Stability Mechanism capacities > EU Investments initiative for SMEs and health care > Mobilisation of capital by European Investment Bank | > Provision of additional liquidity to banking system > New PEPP bond buying program established > Additional extension of existing QE programmes |

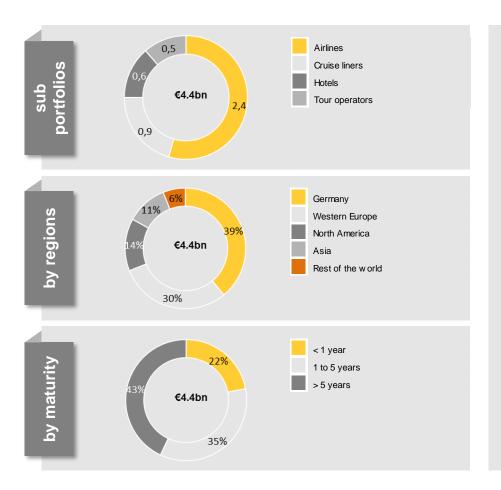

Retail with winners and losers in the Corona crisis – share of 1.5% of overall portfolio

- Overall stable sector due to high proportion of food retailing and drugstores (food retailing with 10-15% non food revenues). Top 10 borrower units represent 57% of sector EaD
- Retail industry: fierce predatory competition in all segments by price and investments in shop modernization
- In crisis: food retailing winner due to stay-at-home effect and shut down of competitors in non food. Fashion: most severely affected
- After crisis: Home Improvement/Furniture/DIY: expected to benefit from "cocooning-impact" and shift in consumer preferences
- Corona liquidity support: 166 applications, thereof 110 approved, 25 in processing, 15 rejected and 16 recalled
- Our consistent strategy of customer selection and support of sustainable business models only over the past years pays off during the current crisis

Travel related industries are strongly affected by the Corona crisis – share of only 0.9% of overall portfolio

- > € 2.4bn airlines portfolio consists of €1.8bn secured aircraft financing and €0.6bn corporate exposure
- Cruise liners (€0.9bn) mostly ECA covered. ECA has provided loan deferral options ("cruise debt holiday of principle") to protect liquidity
- For hotel portfolio (€0.6bn) recovery on a low level expected starting in Q3/2020. The grow will be slow.
 Portfolio consists of €0.3bn asset based financing (only hotels in Germany) and corporate financing (Europewide)
- > Tour operators (€0.5bn): Mix of state support and use of KfW programs
- Approximately 52% of the portfolio with investment grade ratings (previous quarter 83%; decrease because of shifts to sub investment grade e.g. cruise liners / tour operators and airlines)

Oil/gas exposure stands for less than 1% of total exposure – approximately 80% investment grade

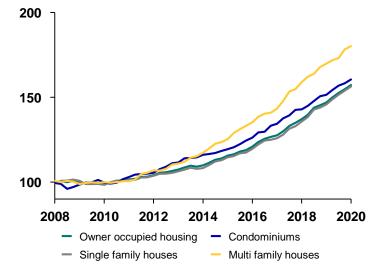

- More than 60% of the exposure to integrated oil & gas majors and Tier II operators with strong balance sheets. Leverage overall better than 2015/16 across these groups – when oil price was last < USD 30/bbl
- Commodity trader exposure concentrated to world's top independent energy traders with strong liquidity profiles and benefiting from "flight to quality"
- Approximately 80% of the overall portfolio equivalent to investment grade
- High ability to react more than 55% of the exposure with maturities below 1 year
- > No exposure to single asset operations
- > No shale producers
- > No project finance

Residential mortgage business vs. property prices

German residential properties

(index values)

Source: vdpresearch, Commerzbank Research

Prices of houses and flats, existing stock and newly constructed dwellings, averages

Overall mortgage portfolio

- > Growing mortgage volume with a very good risk quality:
 - 12/16: EaD €66.8bn RD 10bp
 - 12/17: EaD €75.2bn RD 9bp
 - 12/18: EaD €81.0bn RD 9bp
 - 12/19: EaD €86.6bn RD 8bp
 - 03/20: EaD €88.6bn RD 8bp
 - 06/20: EaD €90.5bn RD 7bp
- > Rating profile with a share of 91% in investment grade ratings
- Vintages of recent years developed more favourably so far and NPEs remain at a low level
- > Due to risk-oriented selection very low RD
- As a consequence of low interest rates, repayment rates remain on a very high level
- Average "Beleihungsauslauf" (BLA) in new business of 78% in Q2 2020. German BLA is more conservative than the internationally used LtV definition due to the application of the strict German Pfandbrief law

Risk parameters on very good level, loan decisions remain conservative

Key figures Commerzbank share

Loan and deposit development

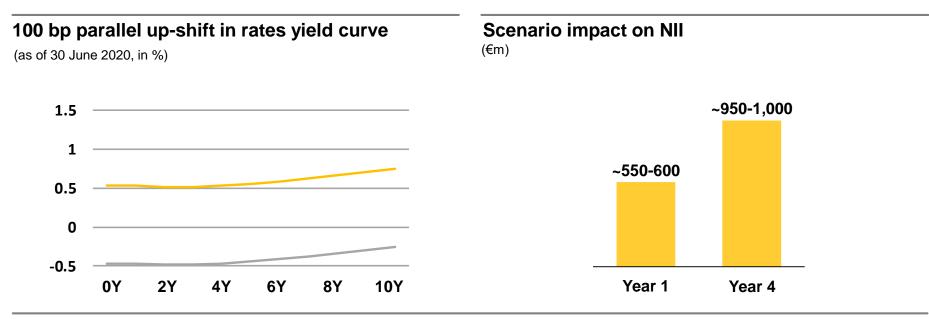

Highlights

- Loan growth in Private and Small Business Customers driven by residential mortgage business and investment loans in Germany – Corona driven increase in deposit base
- > Higher loan volumes in International Corporates offset by Mittelstand and Institutionals
- > Deposit volumes in CC at previous year's levels with increases in International Corporates and Mittelstand

Significant NII potential in scenario of rising interest rates

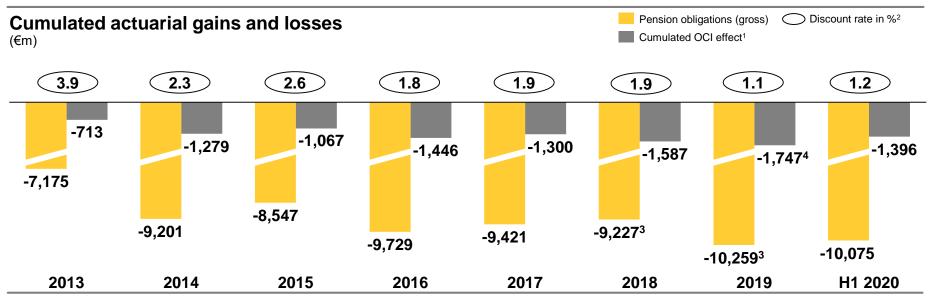

Highlights

- > Year 1 effect of ~€550-600m driven by short-end rates due to large stock of overnight (excess) deposits
- > Thereof ~1/2 stem from leaving the negative interest rate territory
- > Year 4 effect of ~€950-1,000m driven by higher reinvestment yield of modelled deposits used to refinance longer term loans

IAS 19: Development of pension obligations

Additional information

- > Discount rate slightly increased in H1, producing moderate YtD valuation gain in pension obligations. In addition, YtD valuation gain in plan assets mainly from higher market value of interest rate hedges. In total positive net effect (after tax) of +€351m in YtD OCI
- > The discount rate is derived from a AA rated corporate bond basket yield with average duration of 18 years
- > The average funding ratio (plan assets vs. pension obligations) of all Group plans is 100%
- > Since 2013, hedge via plan assets dampened the obligation increase of €2,900m to a cumulated OCI capital effect of -€683m

 1)
 OCI effect driven by development of plan assets versus pension obligations, after tax, without minorities

 GM – Investor Relations | GM – Treasury | 18 August 2020
 2)
 Discount rate for pension plans in Germany (represent 88% of total pension obligations)
 4)
 Adjustments due to 41

 3)
 From 2018 onwards excluding pension obligations of EMC and ebase (sold in July 2019)
 restatement

Net positive impact on CET1 ratio from FX effects

Explanation

Positive impact on CET1 ratio mainly due to lower credit RWA with nearly stable currency translation reserve

- Net decreasing Credit Risk RWA with -€0.6bn from FX effects mainly due to weakening of USD and GBP against EUR
- Nearly stable currency translation reserve due to compensating effects (PLN +€52m, USD -€45m, GBP -€8m)

Disclaimer

The information contained herein has been compiled by Commerzbank Aktiengesellschaft ("Commerzbank") for the information of the recipient only. This presentation has been prepared for information purposes only. It does not constitute or form part of any offer or invitation to buy, sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities or any other financial instruments or to enter into any other transaction. Neither this presentation, nor any part of it, nor the fact of its distribution, shall form the basis of, or be relied on in connection with, any contractual commitment or investment decision in relation to the securities of Commerzbank in any jurisdiction, nor does it constitute a recommendation regarding any such securities. The contents of this document shall not be construed as legal, tax, accounting, financial or investment advice.

This presentation contains forward-looking statements and information on Commerzbank's future business development. Forward-looking statements are statements that are not historical facts; they include, inter alia, statements about Commerzbank's beliefs and expectations in relation to its future business development, and the assumptions underlying these statements. These statements can be recognized by terms such as "expects", "anticipates", "intends", "plans", "aims", "believes", "seeks", "estimates", "will" or words with similar meaning. These statements are based on plans, estimates, projections and targets that are currently available to the management of Commerzbank, as well as assumptions that Commerzbank management believes to be reasonable. Forward-looking statements therefore speak only as of the date they are made, and Commerzbank is under no obligation to update any of them in light of new information or future events. By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include, among others, the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which Commerzbank derives a substantial portion of its revenues and in which it holds a substantial portion of its assets, the development of asset prices and market volatility, potential defaults of borrowers or trading counterparties, the implementation of its strategic initiatives and the reliability of its risk management and compliance policies.

In addition, this presentation contains financial and other information which has been derived from publicly available information disclosed by persons other than Commerzbank ("external data"). In particular, external data has been derived from industry and customer-related data and other calculations taken or derived from industry reports published by third parties, market research reports and commercial publications. Commercial publications generally state that the information they contain has originated from sources assumed to be reliable, but that the accuracy and completeness of such information is not guaranteed and that the calculations contained therein are based on a series of assumptions. The external data has not been independently verified by Commerzbank. Therefore, Commerzbank does not assume any responsibility for the accuracy of the external data taken or derived from public sources.

In addition, some of the industry and market data, if not labelled otherwise, contained in this presentation are derived from Commerzbank's internal research and estimates based on the knowledge and experience of its management in the markets in which it operates. Commerzbank believes that such research and estimates are reasonable and reliable, but their underlying methodology and assumptions have not been verified by any independent source for accuracy or completeness and are subject to change without notice.

The information contained in this presentation is in summary form only, and is therefore not necessarily accurate or complete. Commerzbank makes no representations or warranties as to the accuracy or completeness of the information contained in this presentation. Undue reliance should not be placed on any of the information contained in this presentation.
